Handbook for Counsellors  
of Newcomers \$2.50

Local Directory \$1.00

CAZON  
CR 40 75 078

This Oshawa/Whitby and District Information Directory is a supplement to the **Handbook for Counsellors of Newcomers** and can be used separately or in conjunction with the Handbook. It was revised in co-operation with the Social Planning Council of Oshawa-Whitby.

Because we are in the process of changing the Handbook from one integrated publication (main section plus local supplement) to two separate, complementary books, there are dual page numbers in the lower corner correspond with the following missing pages of the Handbook: 29, 40, 51, 70, 83, 98, 105, 110, 117, 122, 133, 136, 139, (e.g. pages 29, 29a, 29b, etc., all pertain to the Employment section of the Handbook; pages 40, 40a,

40b, etc., all pertain to the Health section of the Handbook, etc.) References are made in the main section of the Handbook to these pages for the local addresses of services or organizations mentioned in the Handbook. The numbers centred at the bottom of the pages in this local directory are the standard consecutive page numbers.

It is hoped that this format for your local supplement will prove to be a convenient reference for addresses and local information, with the Handbook available for more detailed information.

Your comments and suggestions on how this directory could be improved would be appreciated.

### Ambulance Services

For emergency ambulance service the following numbers can be called:

(40a)

Oshawa, Ontario

Whitby, Ontario

723-5232

The person phoning for an ambulance should give the address to which the ambulance is to be sent and what type of emergency it is (a drowning, a heart-attack, an automobile accident, etc.). Emergency calls can also be placed with the operator by dialing "O" and saying "This is an emergency". The operator then connects the person to one of the two above emergency numbers.

In addition, if a person has sudden need of an ambulance when away from home anywhere in Ontario, he should:

1. Dial "Operator"
2. Ask for "ZENITH 90,000" (no charge)
3. Tell the operator where the ambulance is needed.

*A brief description of each of these types of  
services follows, along with a list of hospitals  
providing these services.*

### **Active Treatment Public Hospitals**

Public general hospitals operate under the  
Public Hospitals Act, and include, in addi-  
tion to the regular functions of a hospital  
the following services, unless otherwise  
noted:

Emergency Department

Psychiatric Unit

Paediatrics

Dental Services

Out-Patient Clinics

Hospital health services staffed by public  
health nurses of the municipal departments

of health provide a liaison between hospital and community by referring patients and their families to appropriate health and social organizations when service or continuity of care is required. When hospital health service is available, it is so noted.

Most hospitals provide some type of social service program. In some it is attached to a particular department or function such as psychiatric department, rehabilitation, or placement of patients requiring care in another facility. Those hospitals which maintain social service departments as a hospital department serving all departments of the hospital, are so noted.

### **Method of Payment**

Most Ontario residents have Ontario Health Insurance coverage which takes care of the greater part of the hospital and medical costs. For visitors and foreign students, see 40a.

The Ontario Hospital Services Commission has defined the chronically ill person as: one who needs skilled nursing care, regular medical attention and the special facilities of a hospital or similar institution; one in whom treatment is expected to bring about improvement in function and a possible return to self care; one who requires special nursing techniques and equipment; one whose condition is unstable or has a poor prognosis; one who has an incurable disease.

These patients may be cared for under the Ontario Health Insurance Plan in a nursing home (approved for payment by OHIP) a hospital for the chronically ill, a chronic illness unit of a general hospital, or a private hospital.

Eligible patients are those who (a) can be discharged earlier from hospital and continue their treatment at home, or (b) are ill in their homes and can be adequately treated there in lieu of admission to hospital. No restriction with regard to medical condition, age or economic status although patient must be insured by OHIP and require one professional service in addition to the services of a physician. Services are arranged through existing community agencies and the Program assumes responsibility for co-ordinating the total plan of care.

### Method of Application

supervision of their family doctor. Anyone may call the Victorian Order of Nurses to enquire about the service. The fee is based on the cost of the visit and adjustments can be made to suit the individual budget. No patient is refused because of inability to pay.

## Nursing Homes

Nursing homes care for persons in need of skilled nursing service and regular medical supervision, who are entitled to benefits of the *Extended Care Programme* under the OHIP plan. In addition, up to 25% of any home's licensed capacity may be utilized for persons in need of some nursing care and supervision of the acts of daily living, but who do not qualify for the benefits under the insurance plan. Such residents are responsible for the total charges.

Persons who qualify for Extended Care benefits are responsible for paying \$3.50 per day and the plan will pay the remainder of the Home's approved daily cost for medically necessary services in standard accommodation. Persons seeking an eligibility certificate should have their attending physician complete and submit, on their behalf, an application for Extended Care.

Some nursing homes accept patients from the Ontario Hospitals under the Homes for Special Care Act, R.S.O. 1970, where age and infirmity — not mental illness — are the patient's disability.

Nursing homes are privately operated and are inspected and licensed by the Chronic Care Section of the Ministry of Health.

Information regarding nursing homes may be obtained from either the Extended Health Care Program, Ministry of Health or private physicians who have been provided with a list of participating nursing homes and homes for the aged.

Indigent persons who feel they cannot be responsible for nursing charges should

approach their municipal welfare authorities.
